

Deciduous regeneration study

Lead by: Ken Greenway

Theme: Aspen Regeneration

Status: Completed

Start: 1998

End: 2001

Participants

- Ivor Edwards
- Jason Edwards
- Ken Greenway
- Charlene Hahn
- Amar Varma

Background

n/a

Objectives

1) To assess, on a compartment level, the effect of different levels of partial harvest on aspen and balsam poplar regeneration in deciduous dominant, deciduous with white spruce understory, mixedwood, and conifer dominant stands.

Key Results

n/a
