

# Developing biodiversity patterns for predicting the effect of management on the boreal mixedwood forests of Alberta

Lead by: [Fangliang He](#)

Theme: [Biodiversity](#)

Status: Continuing

Start: 2006

## Participants

- [Guillaume Blanchet](#)
- [Brett Bodeux](#)
- [Jeremy Fitzpatrick](#)
- [Laura Gray](#)
- [Fangliang He](#)
- [David Langor](#)
- [Felix Longpre](#)
- [Jane Park](#)
- [Matthew Pyper](#)
- [Marla Schwarzfeld](#)
- [John Spence](#)
- [Peter White](#)
- [Timothy Work](#)

## Background

n/a

## Objectives

We propose to take a synthetic approach to developing biodiversity benchmarks for the parameters/models that characterize the structure and function of ecosystems

## **Key Results**

n/a
