

EMEND Maps and GIS Files

Lead by: John Spence

Theme: EMEND General Overviews

Status: Continuing

Start: 1998

Participants

- Jason Edwards
- Jim Witiw

Background

This dataset contains EMEND maps and the ARCGIS Shape files used to create the maps. Shapefiles include: Compartments, roads, water, cutlines, EMEND Core Plot locations, baselines, elevations, etc. Some general EMEND maps may be found under the images section of the EMEND Maps and GIS Files Study Metadata page The EMEND Wet Areas Map (WAM) and associated ArcGIS files are also available through this study. The WAM map is provided courtesy of Alberta Sustainable Resource Development through a collaboration with the University of New Brunswick.

Objectives

To distribute EMEND related maps and mapping data.
