

Vegetation-Climate interaction studies

Lead by: [David Langor](#)

Theme: [Hydrology and Microclimate](#)

Status: Continuing

Start: 1998

Participants

- [Ivor Edwards](#)
- [Graham Hillman](#)
- [Rick Hurdle](#)
- [David Langor](#)
- [Jim Stewart](#)

Background

n/a

Objectives

To characterize and compare the microclimate and other physical environmental impacts of fire and harvest; to extend the short term weather records for the EMEND site into the past by establishing a relationship to longer term records.

Key Results

n/a
