

Silviculture System Wind-throw Monitoring

Lead by: Derek Sidders

Theme: Silviculture

Status: Continuing

Start: 1998

Participants

- Diane Carlson
- Tim Keddy
- Kim Lambe
- Derek Sidders

Background

n/a

Objectives

To monitor the impact of winds, post-harvest, on the partial-harvest treatments of conifer dominated, mixed wood, and aspen with conifer understory stands and to assess blowdown patterns based on stand type and retention levels.
